

ABHISHEK MANRAL

Software Developer

+91-9368461603 | manralabishek@gmail.com | <https://linkedin.com/in/abhishek-manral>

PROFESSIONAL SUMMARY

Detail-oriented Developer with over 2 years of experience in designing and implementing responsive, accessible, and high-performance web applications using React.js, TypeScript, and Material UI. Skilled in building scalable component libraries, maintaining WCAG 2.1 accessibility compliance, and ensuring robust test coverage with Jest and React Testing Library.

WORK EXPERIENCE

Global Logic - Hyderabad Associate Software Engineer

Mar 2024 - Present

- Constructing and sustaining custom **React component library** for enterprise client, ensuring design consistency and reusability across various projects.
- Developed accessible and responsive UI components utilising **React.js, TypeScript, Material UI** in adherence to **WCAG 2.1 standards**.
- Documented and integrated components within Storybook, enhancing developer onboarding and minimising UI inconsistencies by 30%.
- Developed **unit tests with Jest and React Testing Library**, securing 85% test coverage and strengthening code reliability.
- Implemented numerous critical features and UI modules for client, guaranteeing high performance, accessibility compliance, and strict adherence to design guidelines.
- Coordinated with **cross-functional teams** (backend, QA, DevOps and UX) within **Agile framework** to ensure timely delivery of sprint-based deliverables.
- Managed **translations in custom repositories**, ensuring updates were correctly implemented across **35 languages**.
- Fixed multiple accessibility bugs in the application, improving efficiency and compliance with **WCAG standards**.
- Drove a 15% improvement in application performance by leading the **R&D process** to refactor a legacy monolith module into a modern, efficient micro front-end based modules.

Travelexic LLP - Dehradun QA Trainee

Sep 2023 - Feb 2024

- Conducted over **150 manual test cases** each month for diverse feature modules of custom MICE-travel management platform employing Agile methodology. **Executed functional, UI, and cross-browser compatibility** testing across web and mobile platforms
- Monitored, documented, and resolved defects through **JIRA**, facilitating 20% decrease in post-release customer-reported issues.
- Executed manual **API testing with Postman**, uncovering and rectifying over 22+ backend integration issues.

SKILLS

- Programming Languages:** JavaScript, TypeScript, HTML5, CSS3
- Frameworks & Libraries:** React.js, React Native, Material UI
- Testing & QA:** Jest, React Testing Library, Manual Testing (Functional, UI, Cross-Browser)
- Tools & Platforms:** Git, Bitbucket, JIRA, Azure Devops, VS Code, Storybook, Confluence
- Core Competencies:** Web Accessibility (WCAG 2.1), Responsive Web Design, Agile Methodologies, Cross-Functional Collaboration

EDUCATION

Bachelor of Technology- CS
Graphic Era Hill University, Dehradun - 2023
